AMENDMENT AND RESPONSE

Dear Sir:

In response to the Office Action dated October 27, 1997, the Applicants submit the following amendments and remarks. A separate petition for an extension of time is being filed concurrently herewith.

In the claims:

Please amend claims 50-52 as follows.

U.S. Serial No.: 08/000,605

-2-

Group Art Unit: 1813

50. (Amended) A host cell transformed with the recombinant expression vector [of claim] of claim 46.

51. (Amended) A host cell transformed with the recombinant expression vector [of claim] of claim 47.

52. (Amended) A host cell transformed with the recombinant expression vector [of claim] of claim 48.

REMARKS

Claims 8, 9 and 35-52 are pending in the application. Claims 50-52 have been amended. Any amendments to and/or cancellation of the claims should in no way be construed as an acquiescence to any of the objections and/or rejections of record. The amendments and/or cancellations are being made to expedite prosecution of the above-identified application. Applicants reserve the right to file the same or similar claims in this or another application. Claims 8, 9, 35, 37-41, 44-47 and 49-51 have been rejected under 35 USC §102(a).

Rejection of Claims 8, 9, 35-41, 44-47 and 49-51 under 35 USC §102(a)

Claims 8, 9, 35, 37-41, 44-47 and 49-51 were rejected under 35 USC §102(a) as being anticipated by *Pietropaolo et al.*, *Diabetes* 40:1A, abstract #2.

The Examiner states:

Pietropaolo et al. teach the PM-1 protein wherein an initial sequence shows a 252bp open reading frame coding for 84 amino acids without significant homologies to known sequences. *Pietropaolo et al.* failed to disclose the specific nucleotide sequence of their clone. However, a sequence is merely a characterization of the DNA and *Pietropaolo et al.* teach that DNA which inherently possesses the claimed sequence. The vector and host cell are also taught.

U.S. Serial No.: 08/4,605

-3-

Group Art Unit: 1813

Applicants respectfully traverse rejection as applied to claims 8, 9, 35, 37-41, 44-47 and 49-51. The *Pietropaolo* et al. reference is inventors' own work published within one year of the filing date of the present invention and as such is not available as art. An executed *In re Katz* Declaration by Dr. Pietropaolo is submitted herewith.

CONCLUSION

The above rejections and objections are either improper or do not pertain to the claims as newly amended and should be withdrawn. The claims are in condition for allowance. If a telephone conversation with Applicants' Attorney would expedite the prosecution of the above-identified application, the Examiner is urged to call Applicants' Attorney at (617) 227-7400.
